Computers & Technology

Did you know...

This project is for 4-H members who are interested in computers and technology. This can include coding for game platforms, or developing "apps" and websites and even using unmanned aerial vehicles (drones). Computer scientists are in high demand.
What can I do...

- Give a demonstration on different gaming platforms
- Give a speech on unmanned aerial vehicles (also known as drones) and what they can do for the world
- Create a bank in the shape of a computer for the Piggy Bank Pageant
- Attend Academic Conference as a 6th to 8th grader

Check this out...

Do you know what these common technology abbreviations stand for? Test your knowledge below.

UAS _____

CPU _____

AI _____

HTTPS_____

VR _____

Future Thoughts...

What kind of career would someone in the Computers & Technology project pursue?

- Computer or Game Designer
- Software support
- Drone pilot or technician

Do you know what all of these professions do in their job? If not, do some research and dig a little deeper.

Work on this...

Did you know that Tennessee 4-H will soon have a Drone Racing Team? What could a 4-H member do with the knowledge of how to fly a drone? Being a drone pilot is a very good career with a big paycheck.

Do some research on being a drone pilot and decide if this could be a career that you enjoy.

What's Next?

Contact your local 4-H Agent on other ways you can get involved with this project and with 4-H.

- Ask about the Computers and Technology project area
- Start a Computers and Technology project group where 4-H members can come together to learn
- Attend Academic Conference as a 6th – 8th grade member
- Start preparing to submit a portfolio in this project area
- Begin taking action photos of you doing activities in this project area
